

Client Testimonials

“Kelly helped me switch gears and pursue a career in management consulting. This has been an exciting career change and I’ve not looked back. The main strength Kelly provided was in building confidence that it is possible, although hard, to change careers. Her other advice, support and information on structuring the resume, targeting the translatable skills and managing the expectations of what a career in consulting would look like before entering, has been essential to the success of being admitted to a big 4 consultancy. Thank you for all your help!” Thomas, **MBA**

"I have been working through a career change for the past 18 months with Kelly Magowan. Kelly has been a great mentor guiding me through a career change from owning my own Veterinary Practice to revisiting student life to enter study as an Engineering student. This transition was daunting from the outset, and Kelly has made me realise that life really is short, and enjoying your job really is important for life happiness. Her ground-up approach has involved thorough analysis of my career preferences and personality profiling. The journey towards career development could not be rushed. Kelly has patiently and professionally provided me with the tools to work towards a career that is more fulfilling. Kelly is a great communicator and has kept in touch with me through every step of my transition, and still does today. I am so grateful for all she has done for me, and strongly recommend her services. " Daniel, **Veterinary Surgeon**

"I first met Kelly as a job candidate when she was a Recruitment Consultant at Recruitment Solutions in 1999. Unlike so many other consultants, she was extremely professional, proactive and could read beyond the scope of a typical resume to see how I could be recommended for relevant temporary assignments. Our first meeting has lead to an ongoing business relationship lasting more than 10 years as we share similar views, commitments and concerns in relation to recruitment, employment, careers and women in business. Kelly is a passionate and committed leader determined to make a difference in the employment market. She has made every effort to keep her skills current, updated her formal education and is a great networker providing real value in social media forums. Kelly is a woman of action who is also willing to share her wisdom and networks to help others." Sue, **LinkedIn Specialist**

"I've had the pleasure of engaging Kelly as a speaker and HR expert on numerous occasions in the area of salary negotiation, and she always delivers. Her enthusiasm and knowledge are obvious and she creates a strong and lasting positive impression. Kelly is a great educator and smart presenter whose personable and practical approach generates great results – every time. I highly recommend Kelly as a speaker and presenter. Highly professional, motivated and knowledgeable." Bridgette Engeler Newbury, **Incognito Sum / BPW**

"An informal relationship between Six Figures and the Career Centre at Melbourne Business School has developed. Our team subscribes to the [Six Figures Newsletter](#), and from time to time, I enjoy trading employment market insights with Kelly. In December 2008, Six Figures produced a [Salary Negotiation](#) guide for job seekers. We were pleased to add this valuable resource to our online career management library. When organising a Career Success program earlier this year for graduating MBA students, we approached Kelly to deliver a

workshop on this subject. Kelly was kind enough to accept our invitation, and at our urging, agreed to extend the session to include insights on building and maintaining one's Personal Brand – both online and offline. I was particularly impressed (and gratified) with the amount of preparation Kelly put into this presentation, and the fact that she listened carefully to our brief and framed the material for the needs of our audience. Kelly delivered the two-hour session to an audience of some 50 students. The key quality that came across in Kelly's presentation was her passion for the subject matter, giving her greater presence and warmth as a speaker. " Leo Grogan, **Melbourne Business School**
